About ALiAS

The biggest Open-source community in Amity

What is open source?

Computer software where the source code is distributed under an open source license that allows anyone to study, change, improve and distribute the software.

02

What is GSoC

An online, international program designed to encourage new contributors to Open-source:
- Work on OSS and build something useful
- Get help from mentors
- Get paid!

How it Works

Jan 23 - Feb 07

Organization
applications open

March 20 - April 04

GSoC Contributors
submit their
proposals

May 04 - 28

Community
bonding period with
orgs

September 05

Successful GSoC Contributor
projects are announced
(for standard 12 week projects)

Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec

February 22

Accepted GSoC
organizations
announced

May 04

Accepted GSoC
Contributors are
announced

May 29 - August 28

GSoC Contributors
code the summer
away

November 06

Final submission
deadline for
extended projects

03 Our history

- 11 Students Accepted
- 8 Mentors Accepted

- 2020

Your paragraph text

- 1 Student Accepted
- 4 Mentors Accepted

- 2018

- 8 Students Accepted
- 7 Mentors Accepted

- 2019

- 2 Students Accepted

- 2017

Our Speakers

Nishant Singhal

Developer –
GSoC'2022 Contributor –
Contributed to @CcExtractorDevelopment –

Our Speakers

Pankaj Prajapati

- Ex-Software Developer
- GSoC'2022 Contributor
- Contributed to @Oppia

Why should
we do GSoC?

How to get Started?
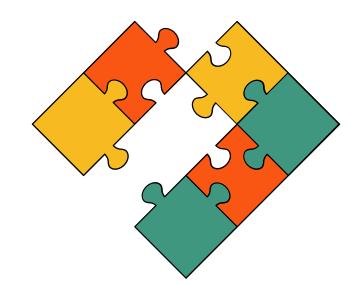

- When you know nothing about OSS and collaboration

Collaborations!

- Importance of knowing people who've participated in some form

Choosing the correct Organization!

- Alignment with your interests
- Project scope and difficulty
- Organizations track record
- Mentor Availability
- Community Engagement

Challenges

- Solving your first issue
- Communications
- Taking feedback
- Being reliable

Time zones and feedback loop!

Takeaways from GSoC
apart from stipend!

- Buidling OSS Skills

- Networking

- Exposure to new technologies

Evaluations

- Contributors must pass two evaluations
- Contributors who have passed each evaluation are paid a **Stipend**.
- At the end contributors submit their code of respective projects for everyone to see
